

## INSTALLATION / SYSTEM CONSTRUCTION

### WORKING EFFICIENTLY AND SAFELY

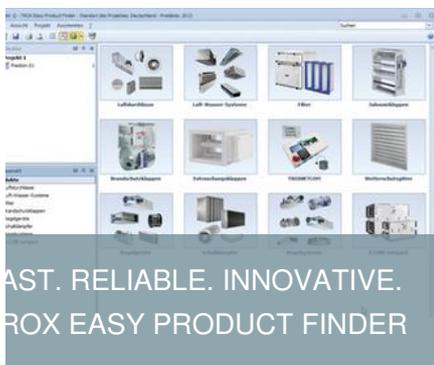

Whether it is in the area of sanitation, heating, and air-conditioning or a large system builder, you are an expert in building services and power engineering and contribute considerably to the energy efficiency of your building and the well-being of its tenants. In this very versatile area of activities, clever concepts that are easy and safe to install and operate are what count. TROX offers system solutions from a single source for new construction and refurbishment, for every building type and every building size.

### TROX NET

In the TROX NET online customer centre, our registered customers are given information on:

- Status quo orders (e.g. processing status, expected date of dispatch, etc.)
- Price lists
- Delivery times
- Data standard
- Selection programmes (PC-versions)

FAST. RELIABLE. INNOVATIVE.
