Arena da Baixada - Curitiba

Curitiba is one of the cleanest and safest cities in Brazil and has an excellent metro bus system. This system will be much appreciated by the spectators who want to attend the football matches in the Arena de Baixada. The Arena de Baixada, formerly known as Estádio Joaquim Américo Guimarães, was originally built in 1914 and modernised in 2013 for the upcoming football event.

EXPO 2008 - Zaragoza

From June to September, over 5.5 million people visited the Expo 2008 in Zaragoza. More than 100 countries and international organisations presented in 140 pavilions the world exhibition's topic "Water and sustainable development". The exhibition's most emblematic buildings were the 76-metre-high Water Tower "Torre del Aqua" containing the sculpture Splash, and the Bridge Pavilion built across the river Elbro. High value was not only put on the architectural design of the pavilions, but also on the pavilions' air-conditioning and ventilation systems which had to provide a maximum level of thermal comfort.
